Plymouth, MI 48170

NO 14

9/10/83

To Whom it may concern:

The purpose of this letter is to provide information concerning P.F. Lazor. He has been a fine, upstanding adult citizen and has had absolutely no involvement of any kind of trouble. He has never shown any tendency whatsoever to become violent or vengeful. He is a gentle natured young man with tremendous sensitivity. He has always shown great appreciation for life - others as well as his own. I believe with all my heart that the only possible situation P.F. Lazor could even consider harm to another individual is if he truly believed his life to be in danger (or the life of any other human being). It is so very clear that he has become the victim in this case. At very least a victim of circumstance and injustice. If our system is truly still honest and just, this young man will not spend even one additional day in any prison. I challenge any person who reads this to make every effort to free this innocent young man.

With great sincerity and  
hope in our system,

*Betty J. Brandon*
