AFFIDAVIT OF DEBREENEE H. COOLEY

I, DebRenée H. Cooley, declare that the following statements are true and correct, based on my personal observation, knowledge and interactions with PF Lazor:

I am writing this affidavit in regards to my long-term friend and associate PF Lazor. My name is DebRenée H. Cooley and I reside at the above address. I have been a practicing dental hygienist for 10 years and own a business with my husband Richard C. Cooley, D.D.S. who has been practicing dentistry for over 25 years in Milpitas, California. We have four children and have been long-term members of our Los Gatos community for over 20 years.

PF and I met in 1980 while I was still in college and was with me as I graduated and began my profession in dental hygiene. We began a business together with the Neo-Life Co. in Fremont, California that was fairly successful and having PF as a partner and leader in our business showed me his honesty, diligence, and morally ethic nature.

PF and I were also engaged for a short period of time in which we developed responsibility and caring for each other. He was a very supportive friend to me and showed me no selfishness in his character. I knew him to be a very sensitive and caring man and he treated the people he knew with respect and professionalism. We attended a church together in Fremont where we regularly sang songs that he composed supporting our beliefs about the goodness of life and a positive attitude. PF is a spiritual man and he always expressed a positive outlook in his personal and business endeavors. He was incredibly diligent in all that he did and followed through with his commitments in a most responsible way. He was always there to help out a friend in need.

I would have been willing and able to testify on his behalf at his trial in 1983, had I been called to do so, and I would be willing now to testify on his behalf, if I am needed to do so.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

DATED: November 10, 1989
