

I, Debra Klein, declare that the following statements are true and correct, based on my personal observation, knowledge and interactions with PF Lazor;

My name is Debra Klein, I live at 35647 Barnard Drive in Fremont, California. I am a housewife and also work part-time for the Fremont Unified School District as an Instructional Aide. I have lived in the Tri-City area for 14 years and in the Bay Area all of my life.

I first met PF Lazor approximately 7 years ago when he came as a guest of a friend of mine to a Halloween party my husband and I gave. I met him again a few months later through the same friend when he came to our home on two different occasions as a representative for the company he was then working for, A.L. Williams.

I remember being impressed by a few different things during these 3 times PF was in my home. One was that I immediately felt comfortable around him, two was what a "fun" person he was and how he truly seemed to enjoy life. Thirdly, and probably most importantly to me, was the way he related to my two small children. He seemed to have that special gift with children that is very rare, especially someone who had none of his own. My kids really "took to him". He took the time to talk to and play with them even though he was in our home on business (my children were not present at the Halloween party). They still ask about him!

I remember being absolutely shocked when I heard what had happened to PF. Jail!?!? I couldn't believe it! I have always prided myself on being very perceptive when it comes to people and I could not and would not believe that PF had intentionally hurt another human being. Shortly after his imprisonment, I got his address from the same friend who I had met him through, and have been corresponding with him ever since. He has become a special friend to me even though the circumstances have been rather strange. He almost always remembers to ask about or write a little note to my children in his letters and is such a caring, loving man.

In closing, I have high hopes that the "system" will soon take care of the terrible injustice that has been done to PF and give him his life back. No one deserves it more!

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.
