Board of Prison Terms
1515 "K" Street, Suite # 600
Sacramento, CA 95814

To whom it May Concern,

P F Lazor has been like a part of our family ever since he moved to California at the age of 22, in 1976. I know him very well and he is one of the most highly thought of and respected human beings that I have ever known.

What a **shameful crime** that he has **wrongfully** been in prison for **22 years!** He is supposed to have a parole hearing in the very near future. I do hope that you, the members of the Parole Board and whom ever else has a say in his release, will see the wisdom and the justice in releasing him back into freedom and his own life, without further delay!

I know that he will be a great contribution to any community that he lives in! He always was before this tragedy in his life. He will not need any rehabilitation, as he never became un-habilitated and never has developed a prisoner mind-set. P F is (and always has been) kind, well mannered, intelligent, gracious, capable and appreciative.

I am writing this letter to let you know that I myself, as well as many of P F's other Bay Area friends, would be more than happy to pick him up at MCSP upon his release, which I dearly hope will be very soon!!

As to who I am: I am 71 years young. I have 2 daughters (my oldest is just 2 years younger than P F) and one son. I have been a widow since 1964. I raised my children by myself and I must say that all 3 turned out really great. I am very, very proud of them! I write children's book and verses for greeting cards. I care for my elderly parents and 2 other elderly handicapped people. I am sure that I can be of assistance if P F needs any, not in money particularly, but in other ways.

Thank you for reading this letter and please know that the huge file that CDC has for P F is mostly full of falsehoods. His severe multiple chemical sensitivity to almost all chemicals (MCS) and his related dietary condition, plus his religious beliefs of Sabbath Day keeping, have resulted in irritation to the system. This has created a never ending retaliation cycle against him and a huge file. He is not and never has been a danger to anyone.

Most Sincerely,

Gayle Travis
