September 26, 1983

Dear April,

We received your letter asking for a letter of recommendation in behalf of PF Lazor. Please excuse this handwritten letter but I do not have immediate access to a typewriter.

We first met PF in early 1980 when he purchased health products from us. As we got to know him better, he decided to become an active distributor in our business within our organization. Our business association continued through to December 1980. At that time we sold our business to accept another position with our company.

PF worked extremely hard to build his distributorship. He cared a great deal about the people he contacted while at the same time, he was anxious to be successful. PF was very trustworthy - we never worried about his skipping out on us with money owed. He was a self-starter and became successful more quickly than 99% of the other people we worked with. PF is not afraid of hard work and always seemed to want to do right by the people he met. We were very impressed with his abilities.

We are deeply sorry about this turn of events in PF's life. We certainly wish him the best.

Sincerely,
Janice Hammond
