September 11, 1989

To Whom It May Concern:

I, Margery Waite Santos, declare the following statements are true and correct, based on my personal knowledge, observation and interactions with PF Lazor.

Above is my address -- I have lived in Fremont for 30 years, am a real estate broker, and have 5 adult children.

I knew PF, prior to his arrest, as a fellow member of the Church of Religious Science in Fremont. He was an active member, appeared to be energetic (full of energy), intelligent, and friendly.

A group of us from church, plus other friends, went to Treasure Island in San Francisco to hear PF perform in his band, a happy event.

My ex-husband and I had a business interview with PF regarding an investment he was promoting. Even though we did not invest, we both commented later that he was intelligent, ambitious and likeable.

I wish him only good luck in his present and future life.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Margery Waite Santos
