M's Margarita Perez, Chairwoman
Board of Prison Terms
California State
1550 K Street, Suite 600
Sacramento, California [95814]

Dear M's Perez and Fellow Board Members:

This is written for and on behalf of California State prisoner Mr. PF Lazor, whose Parole Hearing is planned for ~~early February~~ ^{*APRIL*} I believe. My purpose is to help plead his case, and ask you to grant his very-deserved and overdue Parole this time, please. We can also help his adjusting.

My wife and I have known PF in person and by letters and telephone calls since approximately 1991, having visited him in prison several times since then as part of our global Scott Christian Ministries endeavors. This ~~_____~~ at least one polygraph examination, proving his innocence, when a guard had accused him of a ridiculously false charge; as well as it ~~_____~~

Other letters to you in support of current California prisoner PF Lazor will clearly outline many reasons and proofs of why he was and is innocent of the charges at hand, and your unbiased approach in reading them will be appreciated. As a trained private investigator, and formerly as General Douglas MacArthur's youngest economics investigator in the military government of Japan, I attest to studying reams of PF Lazor's transcripts and files, and finding him absolutely innocent of the charges for which he was sentenced to prison some 22 years ago.

What more can be added to persuade you to set him free now? Please do so, for the sake of pure justice and what is just plain right. And thank you for your general excellence.

Most sincerely, without prejudice,
Neil Alan: Scott
