James W. Nielsen, Chairman  
Board of Prison Terms  
428 J Street, Sixth Floor  
Sacramento, Calif. 95814/TDC

Dear Chairman James Nielsen:

Today my wife and I received a request of our written assistance for innocent inmate PF LAZOR, from other friends of his in Northern California.

For many years we have appreciated PF's loyal friendship, and have considered it a privilege to Lawfully assist him in proving his innocence. Doing so has included coordinating undeniable evidences in PF's favor from other professionals, such as medical, mental and ballistics experts, and even overturning a false accusation by way of a polygraph examination.

This present letter does not need to reiterate inmate PF Lazor's superb contributions to society, before he was railroaded into state prisons (in my honest opinion, based upon very substantial evidence). His other trustworthy friends can apprise you of those contributions by him, and far more.

Please let this more modest attempt be understood as a simple but firm timely plea, from one friend on behalf of another, for you to see him released from this inapplicable cruelty of false imprisonment in the California system.

Hopefully it thus will be possible to thank you and yours very much.

Most sincerely,

  
N. A. Scott, Ph.D., D.D.
