Dear Ms. Perez and Board Members:

I have been in contact with Mr. Lazor for several years and are very familiar with him and his situation. I have even contacted his parents in Michigan. Having gotten to know him quite well in my correspondence, I am sure that he would be no risk to society if he were to be paroled. I became acquainted with the reason for his incarceration and have seen evidence, which if I had been on the jury, that would have given me grounds for acquittal. Therefore, I request that you please review his case carefully and completely. Further, it is my conviction that he has the talents and initiative to lead a productive life.

About a year ago, I had sent a letter to Governor Schwarzenegger regarding an executive pardon. At that time, Mr. Lazor was not up for parole and I received no response nor report of any action taken.

Sincerely,

Steve J. Kieler
