OPINION OF P.F. LAZOR'S SONGWRITING PRODUCT

FROM MARVIN E. SMITH

I've listened to a variety of a cappella excerpts of songs written by P. Freeman Lazor, considering both the lyrical quality and the melodies; and these songs' potential marketability to today's music audiences.

In 8 words:

Lazor's songwriting is the best I've ever heard.

This fantastic music is too good not to come to the top sooner or later; it will surface. It is top-10 FM music.

Lazor's songwriting and style are equal to anything Lennon & McCartney or the Eagles have ever done at their peak, when they were their very best. Genius.

P.F. Lazor's songs are akin to the very best that Crosby, Stills, Nash & Young ever did in their greatest era, and as good if not better than a lot of Bruce Springsteen's top material.

I could say a lot more, but that's it, this guy's good - the best.

WHO AM I ?

For two weeks I opened the show for "best blues & jazz" grammy winner, JOE TURNER ('The Boss of Blues') at the Jazzarama Club in North Carolina. Other than that I've been a layman songwriter and connoisseur of all song styles during the music eras of the past thirty years, always in sync with the pulse & music tastes of the purchasing masses. Lazor's music will sell.

I am no more than a passing acquaintance of Freeman Lazor, and have no interest of gain in making these comments. I speak true from the heart.
