

ALWAYS
(Sounds Like Spring)

12-22-13 (3) •

1. Sounds like spring around the corner,
scents of summer even warmer;
with a whole world before us till the fall.
And we'll fill it all with blessings
until winter's soft caressings
in a wonderland, to grandstand, it all...
It all... All ours... Always.
2. Blazing fire at the hearthstone,
you and I together alone,
sharing sacred, somewhat secret, mysteries.
Subtle harp strings pierce the twilight
till the dawning tries to pry night
from the hues awakened in the morning breeze...
Sunny days... All ours... Always.
3. Fading-ember stars above you
bring another day to love you,
the pinnacle, the pearl of my delight;
To laugh, to cry, together,
for best, for worst, for-ever
Could anything ever be more right?
So right... All right... Always.

[INSTRUMENTAL]

4. Love's the only thing could save us,
let us cling to that oasis
through joy, through bad, through sadness — come what may.
Through the trials and tribulations,
kaleidoscope of life's sensations
with the binding cord of love that does not fray...
Every day... Ever stay... Always.
