

## **HIGH AND MIGHTY**

4-21-14  
(#37)

- 1. Don your armaments with your head held high.  
Let your courage rise to the height of the sky !  
Proudly let your banners stream,  
hear the clash of sword and shield scream  
with the gallantry of your steed displayed supreme.**
- 2. Taste the battle, run to the front lines alone.  
Remember what David did to Goliath with a stone.  
Dash atop the crest of fear,  
fight for the ones you hold most dear  
remember the millions of warriors who cleared the way to here.**

### **[INSTRUMENTAL]**

- 3. Raise the flag of freedom against tyranny.  
Clear the way for new generations brought up free.  
Pledge your life for this legacy,  
to pass to your sons and your family  
most of all, the woman who awaits your return, patiently.**
- 4. High and mighty are the ways of life you defend.  
Uphold them with everything you're made of, to the end.  
Never let die what you're fighting for,  
without this, life's worth nothing anymore  
pledge your heart, pledge your life, pledge your honor  
to prevail in this war.**

### **[INSTRUMENTAL, FADEOUT]**
