

I LOVE YOU BETTER IN THE COUNTRY

3-28-15 (2)
(#24)

1. I love you better in the country
where lust joins love so naturally.
Your heart all mine — the city left behind
where I can love you with all of me.
2. I love you better in the country
my passion there's a burning flame.
Unlike the city that takes part of me
my country passion you can't tame.
3. I love to love you in the country
come leave the city far behind.
Drive your passion all the way to me
I'll love you right out of your mind.
4. I love you better in the country
for reasons we may never know.
When I take you there don't hold on — to even a thread
country-love me, just let go !

[HOT GUITAR INSTRUMENTAL]

BRIDGE: Come get it, all of me awaits you !
Get in your car right now and drive !
You know the route to the highway of my heart
where my love for you is alive !

5. Come love me better in the country
It's half past twelve, be here by two
If you're not here by then I can't wait (another second)
I'll bring my country love to you !
((I'll bring) the country in my heart to you). *

[INSTRUMENTAL 2 X, FADE OUT]
