

UTOPIAN GMO WORLD

6-10-16
(#54)

1. Winter follows spring, crazy Franken-food's the thing,
cows with hoof and mouth gone mad, but *Round-Up Ready* clowns are glad.
Monsanto hailed as king, the masses fall for anything,
with chemtrail sickness none can halt,
as Bill Gates vaccinates his *Doomsday Vault*.

[TURNAROUND – 4 MEASURES]

2. But help is on the way — if you believe in Santa's sleigh.
No more bees around to sting, or pollinate the fate they bring.
Birds dying in droves, sawdust white bread sweetened loaves.
And Johnny can't spell "school," but his *Ritalin* sure is cool
— it's O.K. he's learned how to play and, hey, he can drool !

REFRAIN: Utopia's on the way, and they may lock it in to stay.
Is your *New World Order* up to par, so far ?
And hey, you ain't seen nothin' yet,
keep your brain plugged in to that TV set
— banker's fodder, water gettin' hotter,
frog in the kettle is all you are ! *

3. First-class mass-autism, the percentage has never risen.
This I know because they told me so in my gov'mint school-prison.
The talking heads have told us in that bill of goods they sold us,
that utopia's missing link is programmed minds that cannot think.

BRIDGE: The wonder and the beauty of life not only gone but forgotten
by minds deranged and drained in skulls now but
pill bottles stuffed with cotton . . .
never been free, can't see every branch of the tree
of their GMO World turning rotten.

[INSTRUMENTAL]

4. It's massive self-destruction population-plan-reduction.
If you're in its way, THEN MOVE ! or become mangled in its groove !
Genetically Modified Souls, in keeping with the planners' goals,
in their race to enslave us, will it take an EMP blast to save us ?

[REPEAT REFRAIN AND FADE OUT BLENDED IN INSTRUMENTAL]

* On final refrain, modify to: frogs in the kettle is all we are !
