

WE SAILED FOR GREECE IN SUMMER

1. We sailed for Greece in summer
Young as the spring that left us
Forests of old were tinged with gold.
But we would never get there
tho we saw red suns set there,
(when) we were wild as we were bold.
2. Moon on the waters glowing
Ten men in cadence rowing
Ripples thru mem'ries like the tide.
I thought we must be dreaming
but it was real as anything
Both in the same dream—you by my side.
3. Out in the distance running
Your skin was bare and stunning
Breathtaking moments by the sea...
We were our own dug treasure
Life's ultimate best pleasure,
the jewels of our hearts, just you and me.

[INSTRUMENTAL]

4. I hear it call us still now
Foghorn in misty distance
like an old train whistle far away.
Beckoning us to finish
what we began with a half-wish
Wondering then if you -or I- would stay...

[INSTRUMENTAL x 2]

5. How I love happy endings
*Sweet tears shower new beginnings
We vowed then only, "I will try" ...
But as the years grew longer
every day love grew stronger
till it would never leave—nor ever die!
([spoken to her] "I will never leave, we will never die")

(FADED, BARELY AUDIBLE): "How I love happy endings
with sweet tears that shower..."
