

WINTERLAND, WONDERLAND

A simple song.

1. In winterland we stand
is anything so grand?
A glorious wonderland
But just a glimpse of what is brewing...
2. Shadows from the trees
Snow to childrens' knees
Joy in all the small one sees
Inticed by nature's wooing.
3. So lovely is the snow
Spectacular light show
Sparkling winter sun aglow
Begins the season's undoing.

(NEEDS A BRIDGE OR HOOK HERE)

4. Flickering candle light
From blind and dark to sight
Illuminates with delight
to all that it's imbuing.
5. Only in the spring
as winter's spent its fling
can we have the thing
so marvelous as this renewing.
6. And life is like this too
Everything's "renew"
The patterns cycling through
to start again reviewing.

(BRIDGE OR HOOK REPEAT)

7. Eternity is near
It's always been right here.
Creation's great career
This season to the next pursuing...
