

WISHING YOU WERE HERE

11-3-14
(#86)

1. **Woman practically just offered me
her body with good cheer
— with endless good liquor
though I don't even drink beer.
Been enticed with everything
but the one thing I hold so dear
in these special moments
*wishing you were here.***

[INSTRUMENTAL TURNAROUND]

2. **I've been through 'bout everything
seen most all there is to see
Paid the price where nothin's nice
and nothin's free.
Conquered dragons, conquered fear
seen war and death and shed no tear
But I'm watery-eyed just
*wishin' you were here.***

**BRIDGE: Woman, how my longing, wand'ring heart aches for you
to hold you again, there's just about
nothin' I wouldn't do.**

[INSTRUMENTAL]

3. **What's life worth without the one thing
that's always mattered the most ?
Without your love
life's vapid as a ghost.
Special moments. special memories
fogged and faded, now unclear —
in an unfulfilled heart
*wishing you were here.***

[REPEAT BRIDGE]

4. **Bring the smile back to my face
Bring back the moments you were near
Fill my soul with joy again,
my heart with cheer.
Let me love you like back when
and never have to again
be missing you, and
*wishing you were here.***
